

# Zerust VCI Film Protects Turbines from Corrosion

**Zerust**<sup>®</sup> OIL & GAS  
WORLDWIDE CORROSION SOLUTIONS

## TURBINE PRESERVATION *Zerust VCI Film*

### CLIENT APPLICATION *Turbine Preservation*

- High value equipment like turbines are best protected with VCI solutions
- The turbines are cleaned and dried – and Zerust VCI diffusers are positioned at various point on the turbine; ports and vents are sealed with Zerust VCI film
- The entire turbine is wrapped with Zerust VCI film and shrink wrapped with outdoor film
- There is no need for oils and greases – other than may be required for lubrication of bearings
- Turbines of any size dimension can be protected
- As long as the integrity of the packaging is maintained, the Zerust VCIs will protect the turbine parts from corrosion; 10+ years of protection is possible if stored in an indoor warehouse
